66-71

Staging Reminders

Follow the 2024 Staging Area Instructions carefully. Share pertinent information with your entire group.

Many units will line up out of numerical order, so double-check your staging area placement location.

The staging area is tight, so set up directly in front of your sign marker. Please respect others' space.

No dropping off in the staging area. No additional vehicles.

Safety is Job #1: Drive safely in the staging area. Watch for kids!
